

John Adel Samuel

Mobile: 01201559329

Address: Shubra, Cairo, Egypt

Email: john.adel.samuel@gmail.com

LinkedIn: www.linkedin.com/in/johnadelsamuel

Objective

Entry-level Data Scientist skilled in Python, NumPy, and Pandas. Eager to apply a strong foundation in data analysis and machine learning to deliver actionable business intelligence and accurate predictive models for data-driven decision-making.

Education

Bachelor of Science in Computer Science, Zagazig National University, Expected 2027

- Major: Medical Informatics
 - Grade: 3.921
-

Experience

Machine Learning Trainee
Digital Egypt Pioneers Initiative

(Jul 2026 - Jan 2027)

- Completed comprehensive, advanced training in machine learning frameworks, professional communication, and freelance business mechanics.
 - Collaborated with a cross-functional technical team to build and deliver a graduation project applying core machine learning concepts.
 - Secured and executed freelance technical projects, generating \$300 in revenue on global competitive platforms.
-

Courses and Certificates

Probability
365 Data Science

(Issued May 2026)

Covered fundamental probability rules and statistical logic.

Data Science: R Basics
edX

(Issued May 2026)

Covered professional R programming concepts and data manipulation.

Statistics
365 Data Science

(Issued Mar 2026)

Covered statistical rules and Excel-based data analysis.

Introduction to Jupyter 365 Data Science Covered Jupyter interface and professional kernel operations.	(Issued Nov 2024)
Introduction to Python 365 Data Science Covered control structures, functions, classes, and packages.	(Issued Nov 2024)
Introduction to R Programming 365 Data Science Covered core data types, statistics, and probability.	(Issued Nov 2024)
Introduction to Data and Data Science 365 Data Science Covered AI fundamentals and learning types.	(Issued Nov 2024)

Skills

- **Programming Languages:** Python, R
 - **Data Libraries:** NumPy, Pandas
 - **Languages:** English (B1)
-

Extracurricular Activities

Video Committee Member 180 Daraga, Cairo University	(Nov 2025 - Nov 2027)
• Produced fully animated reels and edited real-life footage to support team marketing initiatives and event coverage. • Utilised Adobe Premiere Pro, After Effects, Audacity, and AI tools (Gemini) to accelerate editing workflows and deliver high-quality video content.
